American Journal of Physiology: Cell Physiology

No. 1. JANUARY 1984

BRIEF REVIEWS

| | |
|---|------|
| Secretory products of macrophages and their physiological functions <i>R. Takemura and Z. Werb</i> | C1 |
| The application of nuclear magnetic resonance to the study of cellular physiology <i>R. S. Balaban</i> | C10 |
| <hr/> | |
| Na ⁺ -K ⁺ transport and volume of rat erythrocytes under dietary K ⁺ deficiency <i>J. Duhm and B. O. Göbel</i> | C20 |
| Inhibition of net calcium efflux from bone by ethanol in vitro <i>W. K. Ramp and D. N. Demaree</i> | C30 |
| Protein secretion induced by isoproterenol or pentoxifylline in lacrimal gland: Ca ²⁺ effects <i>P. Mauduit, G. Herman, and B. Rossignol</i> | C37 |
| Effect of temperature on intracellular pH in crayfish neurons and muscle fibers <i>J.-L. Rodeau</i> | C45 |
| Effects of thyroid hormones on adipose tissue development in Sherman and Zucker rats <i>C. Levacher, C. Sztalryd, M.-F. Kinebanyan, and L. Picon</i> | C50 |
| Cobalt inhibition of insulin release: evidence for an action not related to Ca ²⁺ uptake <i>C. B. Wollheim and D. Janjic</i> | C57 |
| Stimulation of cAMP accumulation and lipolysis in hamster adipocytes with forskolin <i>R. J. Schimmel</i> | C63 |
| Early cell alterations induced by histamine and epinephrine in rabbit lung <i>J. Gil and J. M. McNiff</i> | C69 |
| Flounder intestinal absorptive cells have abundant gap junctions and may be coupled <i>R. L. Curtis, J. S. Trier, R. A. Frizzell, N. M. Lindem, and J. L. Madara</i> | C77 |
| Ionic currents in vertebrate myelinated nerve at hyperbaric pressure <i>J. J. Kendig</i> | C84 |
| Nitrogen narcosis and pressure reversal of anesthetic effects in node of Ranvier <i>J. J. Kendig</i> | C91 |
| Muscle fiber regeneration in nerve-intact and free skeletal muscle autografts in cats <i>L. C. Maxwell</i> | C96 |
| Carotid body cell culture and selective growth of glomus cells <i>M. C. Fishman and A. E. Schaffner</i> | C106 |
| Nonlinear force response of active smooth muscle subjected to small stretches <i>R. A. Meiss</i> | C114 |
| Effects of temperature on protein turnover in isolated rat skeletal muscle <i>V. E. Baracos, E. J. Wilson, and A. L. Goldberg</i> | C125 |
| Enhancement by GTP of cAMP binding to hepatic nuclei and cytosol <i>E. M. Rosenberg, A. D. Goodman, and T. L. Lipinski</i> | C131 |
| Phosphoinositide breakdown in blowfly salivary glands <i>I. Litosch, H. S. Lee, and J. N. Fain</i> | C141 |
| Effects of hypertonic solutions on contraction of frog tonic muscle fibers <i>R. E. Godt, A. C. Kirby, and A. M. Gordon</i> | C148 |
| Nocodazole and cytochalasin D induce tetraploidy in mammalian cells <i>G. W. Zieve</i> | C154 |
| <hr/> | |

RAPID COMMUNICATIONS

| | |
|--|------|
| Effects of cellular acidification on ADH-induced intramembrane particle aggregates <i>M. Parisi and J. Bourguet</i> | C157 |
|--|------|

| | |
|--|------|
| EGTA purity and the buffering of calcium ions in physiological solutions <i>D. J. Miller and G. L. Smith</i> | C160 |
| Differing effects of cGMP and cAMP on ion transport across flounder intestine <i>M. C. Rao, N. T. Nash, and M. Field</i> | C167 |
| Amiloride and diltiazem inhibition of microsomal and mitochondrial Na ⁺ and Ca ²⁺ transport <i>L. A. Sordahl, E. F. LaBelle, and K. A. Rex</i> | C172 |
| Decreased bone formation and mineralization in virus-induced diabetes mellitus <i>J. W. Yoon and A. H. Reddi</i> | C177 |

ANNOUNCEMENTS

C180

No. 2. MARCH 1984

ANNOUNCEMENT

| | |
|----------------------|------|
| Statistics Report #3 | C181 |
|----------------------|------|

PHYSIOLOGY IN PERSPECTIVE

| | |
|---|------|
| Preface to the initial lecture <i>A. P. Fishman</i> | C183 |
| The functional significance of neurotransmitter diversity <i>F. E. Bloom</i> | C184 |

BRIEF REVIEWS

| | |
|--|------|
| Transport of water and urea in red blood cells <i>R. I. Macey</i> | C195 |
| Responses of lymphocytes to anisotonic media: volume-regulating behavior <i>S. Grinstein, A. Rothstein, B. Sarkadi, and E. W. Gelfand</i> | C204 |
| Activity of circular muscle of rat uterus at different times in pregnancy <i>B. Bengtsson, E. M. H. Chow, and J. M. Marshall</i> | C216 |
| Release of cAMP from a renal epithelial cell line <i>G. J. Strewler</i> | C224 |
| Kinetics of CO ₂ exchange in human erythrocytes analyzed by ¹³ C-NMR <i>M. Shporer, R. E. Forster, and M. M. Civan</i> | C231 |
| Mechanism of action of barium ion on rat aortic smooth muscle <i>T. R. Hansen, D. X. Dineen, and R. Petrak</i> | C235 |
| Sensitivity of cAMP-stimulated salt secretion in shark rectal gland to "loop" diuretics <i>H. C. Palfrey, P. Silva, and F. H. Epstein</i> | C242 |
| Aortic perfusion pressure as a determinant of cardiac protein synthesis <i>Y. Kira, P. J. Kochel, E. E. Gordon, and H. E. Morgan</i> | C247 |
| Internal perfusion studies demonstrating GABA-induced chloride responses in frog primary afferent neurons <i>K. Hattori, N. Akaike, Y. Oomura, and S. Kuraoka</i> | C259 |
| Cytosolic lysophospholipase in cardiac myocytes and its inhibition by L-palmitoyl carnitine <i>R. W. Gross, G. G. Ahumada, and B. E. Sobel</i> | C266 |
| Some effects of lead at mammalian neuromuscular junction <i>J. B. Pickett and J. C. Bornstein</i> | C271 |
| Mechanics of resting isolated single vascular smooth muscle cells from bovine coronary artery <i>A. M. VanDijk, P. A. Wieringa, M. van der Meer, and J. D. Laird</i> | C277 |
| Heterogeneity in regard to enzymes and metabolites within individual muscle fibers <i>C. S. Hintz, M. M.-Y. Chi, and O. H. Lowry</i> | C288 |

| | |
|--|------|
| Role of polyamines in differentiation of 3T3-L1 fibroblasts into adipocytes <i>B. G. Erwin, D. R. Bethell, and A. E. Pegg</i> | C293 |
| Role of adenosine as an endogenous regulator of respiration in hamster brown adipocytes <i>R. J. Schimmel and L. McCarthy</i> | C301 |
| Effect of calmodulin, Ca^{2+} , and cAMP protein kinase on skinned tracheal smooth muscle <i>M. P. Sparrow, G. Pfitzer, M. Gagelmann, and J. C. Rüegg</i> | C308 |
| Potassium transport by turtle colon: active secretion and active absorption <i>D. R. Halm and D. C. Dawson</i> | C315 |
| Mechanism of protection by verapamil and nifedipine from anoxic injury in isolated cardiac myocytes <i>J. Y. Cheung, A. Leaf, and J. V. Bonventre</i> | C323 |
| Characterization of anion transport system in trout red blood cell <i>L. Romano and H. Passow</i> | C330 |

SPECIAL COMMUNICATIONS

| | |
|--|------|
| Electronic device for microelectrode recordings in epithelial cells <i>J. F. Garcia-Diaz, S. Stump, and W. McD. Armstrong</i> | C339 |
|--|------|

RAPID COMMUNICATIONS

| | |
|---|------|
| Insulin-specific receptor-mediated slowing of beat rate in embryonic heart cells <i>R. L. DeHaan, G. Goodrum, E. Strumlauf, and L. J. Elsas II</i> | C347 |
| Growth of kidney epithelial cells in culture: evidence for autocrine control <i>L. J. Mordan and F. G. Toback</i> | C351 |
| Electrical properties of dog tracheal epithelial cells grown in monolayer culture <i>D. L. Coleman, I. K. Tuet, and J. H. Widdicombe</i> | C355 |

ANNOUNCEMENTS

C360

No. 3. MAY 1984

ANNOUNCEMENT

| | |
|-----------------------------------|------|
| Statistics Reports #5, #6, and #7 | C363 |
|-----------------------------------|------|

BRIEF REVIEW

| | |
|---|------|
| A simple analysis of the "phosphocreatine shuttle" <i>R. A. Meyer, H. L. Sweeney, and M. J. Kushmerick</i> | C365 |
|---|------|

| | |
|--|------|
| Stretch-induced growth in chicken wing muscles: nerve-muscle interaction in muscular dystrophy <i>C. R. Ashmore, Y. B. Lee, P. Summers, and L. Hitchcock</i> | C378 |
| Activation by <i>N</i> -ethylmaleimide of a latent K^{+} - Cl^{-} flux in human red blood cells <i>P. K. Lauf, N. C. Adragna, and R. P. Garay</i> | C385 |
| Analysis of Cl^{-} - HCO_3^{-} exchange during recovery from intracellular acidosis in cardiac Purkinje strands <i>B. Vanheel, A. de Hemptinne, and I. Leusen</i> | C391 |
| Responses of chick renal cell to parathyroid hormone: effect of vitamin D <i>C. T. Liang, R. A. Balakir, J. Barnes, and B. Sacktor</i> | C401 |
| Na^{+} and K^{+} cell concentrations in collagenase-treated rat kidney tubules incubated at various temperatures <i>J.-I. Sudo and F. Morel</i> | C407 |
| β -Adrenergic stimulation of ^{42}K influx in isolated smooth muscle cells <i>C. R. Scheid and F. S. Fay</i> | C415 |

| | |
|---|------|
| Transmembrane ^{45}Ca fluxes in isolated smooth muscle cells: basal Ca^{2+} fluxes <i>C. R. Scheid and F. S. Fay</i> | C422 |
| β -Adrenergic effects on transmembrane ^{45}Ca fluxes in isolated smooth muscle cells <i>C. R. Scheid and F. S. Fay</i> | C431 |
| Hormonal regulation of protein phosphorylation in isolated rat heart cells <i>P. J. Blackshear, R. A. Nemenoff, J. V. Bonventre, J. Y. Cheung, and J. Avruch</i> | C439 |
| Electrical and anatomic characteristics of cells of ferret paratracheal ganglion <i>A. R. Cameron and R. F. Coburn</i> | C450 |
| Neural coordination of excitation of ferret trachealis muscle <i>R. F. Coburn</i> | C459 |
| Lipolysis and fatty acid transport in rat heart: electron microscopic study <i>M. G. Wetzel and R. O. Scow</i> | C467 |
| Covalent linkage of $[\text{Phe}^2, \text{Phe}(p\text{-Na})^3]\text{AVP}$ to vasopressin receptors <i>P. Eggena, F. Fahrenholz, and I. L. Schwartz</i> | C486 |
| Extracellular calcium ion depletion induces release of glycoproteins by canine trachea <i>S. J. Coles, K. R. Bhaskar, D. D. O'Sullivan, and L. M. Reid</i> | C494 |
| Catecholamine-angiotensin II receptor interaction in primary cultures of rat brain <i>C. Sumners and M. K. Raizada</i> | C502 |
| Energetics of isometric contraction in porcine carotid artery <i>J. M. Krisanda and R. J. Paul</i> | C510 |
| Effects of Zn^{2+} on glucose-induced electrical activity and insulin release from mouse pancreatic islets <i>R. Ferrer, B. Soria, C. M. Dawson, I. Atwater, and E. Rojas</i> | C520 |

SPECIAL COMMUNICATIONS

| | |
|---|------|
| High-resolution ^{23}Na -NMR studies of human erythrocytes: use of aqueous shift reagents <i>M. M. Pike, E. T. Fossel, T. W. Smith, and C. S. Springer, Jr.</i> | C528 |
|---|------|

RAPID COMMUNICATIONS

| | |
|---|------|
| Stimulation of oxyntic cell triggers K^+ and Cl^- conductances in apical H^+/K^+ -ATPase membrane <i>J. M. Wolosin and J. G. Forte</i> | C537 |
| Fluid composition of basolateral space of kidney cells in culture and its modification by intracellular cAMP <i>B. Corman, C. Roy, N. Roinel, and C. de Rouffignac</i> | C546 |
| $[\text{^3H}]\text{ouabain}$ binding to cultured rat vascular smooth muscle cells <i>F. Khalil, L. Hopp, B. M. Searle, A. Tokushige, H. Tamura, M. Kino, and A. Aviv</i> | C551 |
| Intracellular pH and bicarbonate activities in rabbit colon <i>M. E. Duffey</i> | C558 |

| | |
|-----------------------------------|------|
| <i>Subject Index to Volume 15</i> | C563 |
| <i>Author Index to Volume 15</i> | C568 |

American Journal of Physiology: Endocrinology and Metabolism

No. 1. JANUARY 1984

INVITED REVIEW

- New perspectives on pancreatic islet glucokinase
M. D. Meglasson and F. M. Matschinsky E1
-
- Rapid changes in hepatic glucose output after a pulse of growth hormone in dogs
P. Vaitkus, A. Sirek, K. H. Norwich, O. V. Sirek, R. H. Unger, and V. Harris E14
- Ovine placental lactogen stimulates glycogen synthesis in fetal rat hepatocytes
M. Freemark and S. Handwerger E21
- Pregnancy-induced insulin resistance in the rat: assessment by glucose clamp technique
A. Leturque, A. F. Burnol, P. Ferré, and J. Girard E25
- Effects of food deprivation and refeeding on total protein and actomyosin degradation
J. B. Li and S. J. Wassner E32
- Mechanism of arginine-stimulated Ca^{2+} influx into pancreatic B cell
A. Herchuelz, P. Lebrun, A. C. Boschero, and W. J. Malaisse E38
- LH release is facilitated by agents that alter cyclic AMP-generating system
M. J. Cronin, W. S. Evans, E. L. Hewlett, and M. O. Thorner E44
- Modeling glucose disposal in diabetic dogs fed mixed meals
Y. Yamasaki, J. Tiran, and A. M. Albisser E52
- Nutritional influences on lipogenesis and thermogenesis after a carbohydrate meal
K. J. Acheson, Y. Schutz, T. Bessard, E. Ravussin, E. Jéquier, and J. P. Flatt E62
- Mechanism of renin release in exercising dog
E. J. Zambraski, M. S. Tucker, C. S. Lakas, S. M. Grassl, and C. G. Scanes E71
- Dietary carbohydrate induces lipogenesis and very-low-density lipoprotein synthesis
J. R. Boogaerts, M. Malone-McNeal, J. Archambault-Schexnayder, and R. A. Davis E77
- Renin-angiotensin system in hypophysectomized rats. I. Control of blood pressure
C. D. Simon, T. W. Honeyman, and J. C. S. Fray E84
- Metabolic effects of oral glucose in the liver of fasted rats
C. B. Niewoehner, D. P. Gilboe, and F. Q. Nuttall E89
- Reduced postprandial heat production with gavage as compared with meal feeding in human subjects
J. LeBlanc, M. Cabanac, and P. Samson E95
- Effect of PTH and $1,25(\text{OH})_2\text{D}_3$ on renal $25(\text{OH})\text{D}_3$ metabolism, adenylate cyclase, and protein kinase
H. J. Armbricht, N. Wongsurawat, T. V. Zenser, and B. B. Davis E102
- Actions of neurohypophysial peptides on pancreatic hormone release
B. E. Dunning, J. H. Moltz, and C. P. Fawcett E108
- Cation-dependent vitamin D activation of human renal cortical guanylate cyclase
D. L. Vesely and D. Juan E115

ANNOUNCEMENTS

E121

No. 2. FEBRUARY 1984

- Metabolic alterations after dehydroepiandrosterone treatment in Zucker rats
A. Shepherd and M. P. Cleary E123
- Influence of converting-enzyme inhibition on rat des-angiotensin I-angiotensinogen
E. Clauser, J. Bouhnik, M. F. Gonzalez, P. Corvol, and J. Menard E129

| | |
|--|------|
| Phosphorylase activation hypersensitivity in hearts of diabetic rats <i>T. B. Miller, Jr.</i> | E134 |
| Metabolic responses to tyramine and cold in young male Sprague-Dawley and Fischer 344 rats <i>M. Kiang-Ulrich and S. M. Horvath</i> | E141 |
| LH responses to LHRH in perfused pituitary cell culture: sex differences in the rat <i>J. S. Loughlin, P. G. Naddaff, and T. M. Badger</i> | E145 |
| Bidirectional alteration of insulin receptor affinity by different forms of physical exercise <i>G. Michel, T. Vocke, W. Fiehn, H. Weicker, W. Schwarz, and W. P. Bieger</i> | E153 |
| Skeletal muscle β -adrenergic receptors: variations due to fiber type and training <i>R. S. Williams, M. G. Caron, and K. Daniel</i> | E160 |
| Rat renal 25-hydroxyvitamin D ₃ 1- and 24-hydroxylases: their in vivo regulation <i>Y. Tanaka and H. F. DeLuca</i> | E168 |
| Insulin-mediated potassium uptake is normal in uremic and healthy subjects <i>A. Alvestrand, J. Wahren, D. Smith, and R. A. DeFronzo</i> | E174 |
| Inhibitory effect of plasma free fatty acids on glucose production in the conscious dog <i>R. R. Wolfe and J. H. F. Shaw</i> | E181 |
| Hyperinsulinemia and in vivo very-low-density lipoprotein-triglyceride kinetics <i>G. Steiner, F. J. Haynes, G. Yoshino, and M. Vranic</i> | E187 |
| Adrenalectomy reverses insulin resistance in muscle from obese (<i>ob/ob</i>) mice <i>K. Ohshima, N. S. Shargill, T. M. Chan, and G. A. Bray</i> | E193 |

RAPID COMMUNICATIONS

| | |
|--|------|
| Changes in cytosolic ionized calcium induced by activators of secretion in GH ₃ cells <i>K. W. Snowdowne and A. B. Borle</i> | E198 |
| Effect of exogenous vasopressin on vasopressin release <i>P. A. Engel, J. W. Rowe, K. L. Minaker, and G. L. Robertson</i> | E202 |

ANNOUNCEMENTS

E208

No. 3. MARCH 1984

ANNOUNCEMENT

| | |

| Statistics Report #3 | E209 |
|----------------------|------|

| | |
|---|------|
| Sex differences in insulin-stimulated glucose transport in rat and human adipocytes <i>J. E. Foley, A. Kashiwagi, H. Chang, T. P. Huecksteadt, S. Lillioja, M. A. Verso, and G. Reaven</i> | E211 |
| A maternal defect is responsible for growth failure in vitamin D-deficient rat pups <i>R. Brommage and H. F. DeLuca</i> | E216 |
| Vitamin D-deficient rats produce reduced quantities of nutritionally adequate milk <i>R. Brommage and H. F. DeLuca</i> | E221 |
| 1,25-Dihydroxyvitamin D ₃ normalizes maternal food consumption and pup growth in rats <i>R. Brommage, K. Jarnagin, and H. F. DeLuca</i> | E227 |
| Chronic norepinephrine infusion and insulin and glucagon secretion in the dog <i>W. J. Raum, R. S. Swerdloff, D. Garner, H. Laks, and M. M. Laks</i> | E232 |
| Fetal glucose uptake and utilization as functions of maternal glucose concentration <i>W. W. Hay, Jr., J. W. Sparks, R. B. Wilkening, F. C. Battaglia, and G. Meschia</i> | E237 |
| In vitro evidence of a role for inhibin in female rabbits <i>A. L. Goodman</i> | E243 |
| Evidence of two forms of hepatic extraction of parathyroid hormone in dogs in vivo <i>P. D'Amour and P.-M. Huet</i> | E249 |
| Glucagon and glucose dynamics in sheep: evidence for glucagon resistance in the fetus <i>S. U. Devaskar, S. Ganguli, D. Styer, U. P. Devaskar, and M. A. Sperling</i> | E256 |

| | |
|--|------|
| Effect of age and dietary calcium on renal 25(OH)D metabolism, serum 1,25(OH) ₂ D, and PTH <i>H. J. Armbricht, L. R. Forte, and B. P. Halloran</i> | E266 |
| Lack of a direct α -adrenergic effect of epinephrine on glucose production in human subjects <i>J. D. Best, W. K. Ward, M. A. Pfeifer, and J. B. Halter</i> | E271 |
| Comparison of glucose, LCT, and LCT plus MCT as calorie sources for parenterally nourished rats <i>T. P. Stein, M. E. Presti, M. J. Leskiw, M. E. Torosian R. G. Settle, G. P. Buzby, and M. D. Schluter</i> | E277 |

RAPID COMMUNICATIONS

| | |
|---|------|
| Estrogen-like stimulation of uterine ornithine decarboxylase by cholera toxin <i>R. A. Webster, C. J. Zaloudek, B. C. Inman, and P. J. Stewart</i> | E288 |

CORRIGENDA

Volume 245, August 1983

Volume 14, August 1983

Page R154: Catherine P. Cramer and Elliott M. Blass. "Mechanisms of control of milk intake in suckling rats." Page R157: Table 1 should read

TABLE 1. *Number of nipple shifts of rats 10-20 days of age*

| Age, days | Nondeprived | Deprived | |
|-----------|-----------------|------------------|------------------|
| | | 6 h | 24 h |
| 10 | 2.75 \pm 1.40 | 4.50 \pm 1.31 | 5.38 \pm 0.70 |
| 15 | 2.75 \pm 1.51 | 6.50 \pm 2.05 | 10.00 \pm 1.59 |
| 20 | 6.62 \pm 3.18 | 15.62 \pm 2.79 | 32.75 \pm 7.13 |

Values are means \pm SE. Rats were deprived for 0, 6, or 24 h, while suckling an anesthetized dam for 40 min during which 10 milk letdowns occurred. $n = 8/\text{cell}$.

No. 1. JANUARY 1984

EDITORIAL

The first seven years and plans for the future

J. A. Schafer

F1

Hydrogen ion permeability of the rabbit proximal convoluted tubule

L. L. Hamm, L. R. Pucacco, J. P. Kokko, and H. R. Jacobson

F3

Abnormalities in glomerular function in rats developing spontaneous hypertension

J. R. Dilley, C. T. Stier, Jr., and W. J. Arendshorst

F12

Effects of acute alterations in PCO_2 on proximal HCO_3^- , Cl^- , and H_2O reabsorption

M. G. Cogan

F21

Nephron sites of action of nicotinamide on phosphate reabsorption

J. A. Haas, T. J. Berndt, A. Haramati, and F. G. Knox

F27

Efferent role of ADH in CNS-induced natriuresis

E. T. Pierce, R. J. Grekin, and D. R. Mouw

F32

Localization of the cerebroventricular receptors involved in CNS-induced natriuresis

E. T. Pierce and D. R. Mouw

F39

Electrochemical heterogeneity of the cochlear endolymph: effect of acetazolamide

O. Sterkers, G. Saumon, P. Tran Ba Huy, E. Ferrary, and C. Amiel

F47

Thyroparathyroidectomy exaggerates calciuric action of ammonium chloride in rats

A. Goulding and D. R. Campbell

F54

Renal gluconeogenesis: axial and internephron heterogeneity and the effect of parathyroid hormone

M.-S. Wang and K. Kurokawa

F59

Renorenal reflex responses to mechano- and chemoreceptor stimulation in the dog and rat

U. C. Kopp, L. A. Olson, and G. F. DiBona

F67

Glutamine transport in renal basolateral vesicles from dogs with metabolic acidosis

D. W. Windus, D. E. Cohn, S. Klahr, and M. R. Hammerman

F78

Analysis of renal denervation in the hydropenic rat: interactions with angiotensin II

J. C. Pelayo and R. C. Blantz

F87

Vasodilation mediated by human PTH 1-34 in the spontaneously hypertensive rat

D. A. McCarron, D. H. Ellison, and S. Anderson

F96

RAPID COMMUNICATIONS

Identification of actin-binding protein and villin in toad bladder epithelia

D. A. Ausiello, H. L. Corwin, and J. H. Hartwig

F101

Altered osmotic thresholds for vasopressin secretion and thirst in human pregnancy

J. M. Davison, E. A. Gilmore, J. Dürr, G. L. Robertson, and M. D. Lindheimer

F105

ANNOUNCEMENTS

F110

No. 2. FEBRUARY 1984

EDITORIAL REVIEW

Evidence of corticosteroid action along the nephron

D. Marver

F111

Determinants of axial osmotic gradients in the differentiating countercurrent system

M. F. Horster, A. Gilg, and P. Lory

F124

Effect of thyroxine administration on phosphate transport across renal cortical brush border membrane

R. E. Espinosa, M. J. Keller, A. N. K. Yusufi, and T. P. Dousa
